PROFILE

"I am an Informatics graduate from Universitas Ubudiyah Indonesia. I have a strong passion for technology and continuously develop my skills through both formal education and self-learning, particularly in software development and digital innovation."

WORK EXPERIENCE

PT PLN UID ACEH - Intern   APR 2024– JUL 2024
Data Visualization

- Created interactive data visualizations using Looker Studio to support business decision-making.
- Designed and developed dashboard reports to monitor customer activity and service metrics.
- Collected, cleaned, and structured customer data for use in visual reporting tools.
- Collaborated with the Priority Account Executive team to identify key performance indicators (KPIs) for reporting needs.
- Ensured data accuracy and consistency across dashboards to support internal analysis and executive reviews.

ORGANIZATION

BEM FAKULTAS SAINS DAN TEKNOLOGI   2022–2025

secretary

- I served as the Secretary of the Student Executive Board (BEM) of the Faculty of Science and Technology at Universitas Ubudiyah Indonesia. In this role, I was responsible for managing organizational administration, documenting activities, preparing official correspondence, and supporting effective coordination among members and with other faculty-level organizations.
